

URGENT APPEAL

The power of ONE.

IT STARTS WITH YOU

Jonathan is 32 years old and recently diagnosed with Acute Myelogenous Leukemia and is in **urgent need** of a bone marrow transplant to survive. Since tissue type is inherited, Jonathan's best chance of finding a genetically matched donor lies with those of Jewish ancestry. However, there are many patients of all backgrounds in need of donors for transplants, so we encourage everyone to join the registry!

Sponsored by:

- Eligible donors must be between the ages of 18-60 and in general good health.
- Blood type doesn't matter.
- Registration involves a simple swab of cells from the inside of the cheek. No blood is required at this stage.
- Those previously tested do not need to be retested.
- Gift of Life's mission is to increase the representation of the Jewish people into the registry.

Sunday August 9TH

9:00 am - 4:00 pm
