COULD YOU BE EZRA'S HERO?

Ezra is 3 years old and loves basketball, music and his tricycle. But Ezra is in need of a bone marrow transplant in order to survive and enjoy these things. Ezra has a rare primary immune deficiency disorder called Hyper IgM Syndrome. Many other patients are also hoping to find their matching donor and receive a lifesaving transplant. We welcome and encourage the entire Brooklyn College community to get swabbed and join the Gift of Life Bone Marrow registry.
