Leadership Welcome

Thank you for sharing in our lifesaving mission, and for taking the time to review our accomplishments in 2023, and our plans for the future.

We are immensely proud of Gift of Life's spectacular team of more than 115 full-time medical, scientific, technical, logistical, and case management professionals who work tirelessly to make lifesaving stem cell transplants possible. Their passionate dedication to our mission to save lives has paved the way for the forthcoming expansion of one of the world's largest stem cell collection facilities, the Dr.

Miriam and Sheldon G. Adelson Collection Center, housed at Gift of Life's headquarters in Boca Raton, Fla., and the growth of the cutting-edge research taking place in our Center for Cell and Gene Therapy.

None of Gift of Life's success would be possible without the communities, families, friends, and supporters who believe in our work, help us realize our dreams, and remain determined to ensure our future success.

Every day, Gift of Life makes countless dreams a reality. We look forward to 2024 with great anticipation, as the story of how this mission began and grew to become a worldwide beacon of hope becomes a film. "One in a Million" documents the inspiring story of how the struggle to save one life became a mission to save many others in similar circumstances. It was a grassroots campaign where tens of thousands of strangers rolled up their sleeves for testing in the hopes that they might be the one to save the day. You know how that story ends, that one in a million match was found. Becky not only saved Jay's life, but she also made it possible for Gift of Life to make millions of dreams of health and hope a reality for patients, their families, and their friends.

On behalf of our board of directors, our staff members and volunteers, and the patients we serve around the world, thank you for supporting Gift of Life, so that perfect strangers can have a second chance at life.

Sincerely,

Jay A. Feinberg
Founder and Chief Executive Officer

Stephen B. Siegel
Chairman of the Board

Your Support Saves Lives

— MEET THREE INCREDIBLE DONORS —

Raphael

Alpha Epsilon Pi brother Raphael, 21, joined Gift of Life during a drive held for the fraternity's philanthropy week. Two years later he got that miracle call that he could save a man diagnosed with myelodysplastic syndrome, a type of blood cancer.

He not only donated stem cells, he came back a second time to give his recipient a booster donation of white blood cells.

"I don't consider myself special or different for having done this," said Raphael. "I just feel like I made the decision anyone in their right mind would make if they got the news informing them they're a match. Saving your fellow humans is what this experience is about."

Nicole

Nicole, 19, was just a high school senior when she was called down to the front office with some other students and invited to join the registry through the Dr. Michael Osband Senior Swab program. She had lost her great-grandmother to blood cancer and knew how important it was to do what she could.

Within six months, Nicole matched a woman in need of a transplant! She had a great donation experience at Gift of Life's collection center, and was gratified to be able to help save a life so easily.

"When I learned that my recipient had survived it was a great feeling," she said. "Donating made me feel like I had an impact on her life. The point of doing it is to help someone, to save their life, and that is something to take pride in."

Julian

Julian joined Gift of Life by ordering a swab kit online after seeing a post on Instagram asking for donors 18 to 35 years old to step up. Just over two years later, he learned he was a match for a man diagnosed with lymphoma, and he had the opportunity to help save his life! "It was very exciting on my end to match a patient in need, I was all for it," said Julian. "I understood that this was a once in a lifetime opportunity for me to personally assist someone and cure their cancer. I was more honored than anything."

Julian encourages others of mixed race to step up and join the registry. "Matching people of mixed-race ancestry has so many intricacies," he said. "Matching for donation means the two of you have similar backgrounds, and it's important to help support others in need. Everyone should get on the registry."

2023 ACCOMPLISHMENTS

Saved 430 lives

**Reached the milestone
of 450,000 registered donors!**

**Introduced 20 Gift of Life
donors to their recipients**

**Taught 552 Campus Ambassadors
how to run recruitment drives**

**Celebrated our
5,000th completed transplant**

2023 DONOR AND RECIPIENT INTRODUCTIONS

Donor Tory, 34, met recipient Peter, 61, during the Steps for Life 5k South Florida

Peter Grehlinger, was thrilled to be introduced to his donor Tory Foster, since his transplant to cure Acute Myeloid Leukemia. Tory joined the registry at an event at Florida Southern University sponsored by Misfits Gaming.

DONOR CIRCLE:
Misfits Gaming

Donor Alexandra, 27, met recipient Diane, 69, during Celebrating Life New York City

Alexandra Levy joined Gift of Life while a student at Tulane University. She was honored to donate stem cells to help save Diane Berson, who was diagnosed with Non-Hodgkin's Lymphoma.

DONOR CIRCLE:
Campus Ambassador Program

Donor Cory, 33, met recipient Wayne, 66, during Celebrating Life Boston

Former physician Wayne Misselbeck was shocked to discover he had Non-Hodgkin's Lymphoma, but fortunately his match, Cory Beck, was already in Gift of Life's registry. Cory had swabbed hoping to help a community member, but was happy to save Wayne's life.

DONOR CIRCLE:
Evie Goldfine's Fundraising Campaign

“

I instantly said yes to donating. I've always wanted to help people, and this was the ultimate way of helping someone in need.

— TORY FOSTER
STEM CELL DONOR

“

I was surprised and amazed that someone would be willing to donate to a perfect stranger. She is my superhero!

— DIANE BERSON
STEM CELL RECIPIENT

“

This amazing experience ranks right up there with marrying my wife and having three children. I am so happy to have been able to donate.

— CORY BECK
STEM CELL DONOR

Donor Edie, 25, met recipient Megan, 45, at Project Life Movement's Wine Dinner

Medical student Edie Statham was excited to meet the woman who had received her stem cells to cure Acute Lymphoblastic Leukemia, Megan Turek-Green. Edie joined Gift of Life's registry through Project Life Movement, a recruiting partner in the southeastern region of the United States.

DONOR CIRCLE:
McKesson Marrow Drive

Donor Joshua, 38, met recipient Steve, 46, at a Nashville Predators game

Joshua Wildes, a high school math teacher, joined the registry during a drive at his school. He donated stem cells to save Steve Chesley, who was diagnosed with Acute Myelogenous Leukemia. The pair's emotional first meeting took place on Hockey Fights Cancer Night.

DONOR CIRCLE:
Yeshiva University

Donor Kassidy, 24, met recipient Hayden, 9, at the Gift of Life Celebrity Golf Tournament

Kassidy Cook joined the registry at the University of Boulder and saved the life of Hayden McClung, who was battling severe Aplastic Anemia. Hayden's parents were overwhelmed with emotions and gratitude on meeting Kassidy. "Our son is healthy and strong again thanks to your generosity," said Jeff, Hayden's father.

DONOR CIRCLE:
Campus Ambassador Program

Donor Eli, 29, met recipient Earl, 77, at the Gift of Life Celebrity Golf Tournament

Earl Luttner survived Myelodysplastic Syndrome thanks to his stem cell donor Eli Hoch. Eli joined the registry during drives for someone in his community, and felt it was an honor to meet his recipient – and to have the chance to play golf with him.

DONOR CIRCLE:
Yossi Mazurek

Donor Daniel, 27, met recipient Hayley, 22, during Cocktails & Conversation Seattle

Daniel Thomas was honored to meet his recipient Hayley Anderson. Daniel donated bone marrow to save Haley's life as she was diagnosed with a very rare inherited immune disorder, DOCK8 syndrome.

DONOR CIRCLE:
Campus Ambassador Program

Donor Janisha, 29, met recipient Theresa, 68, at Gift of Life Miami Beach Police Department Community Day

Janisha Paul, a nurse, joined the registry in college at the University of Florida. Her recipient, Theresa, was diagnosed with Acute Myelogenous Leukemia, and a transplant was her only cure. The two women were thrilled to be matched.

DONOR CIRCLE:
Hillel International

Donor Rachel, 22, met her recipient Anahita, 39, at the One Huge Night Los Angeles Gala

Anahita Yazdgerdi was frightened at the diagnosis of Acute Myeloid Leukemia, but only a week into the search, her donor was found in Gift of Life's registry. Rachel Barron swabbed on her Birthright Israel trip and was excited to be asked to donate. The meeting between the two was full of joy.

DONOR CIRCLE:
Birthright Israel

Donor Alec, 24, met his recipient Julius, 14, at the One Huge Night New York City Gala

Julius Wolfe was diagnosed with Acute Myeloid Leukemia, and only had one matching donor in the registry: Alec Kremins. Alec joined Gift of Life's registry while on Birthright Israel trip to help others in any way he could. The moment of their meeting was emotional for them and for Julius's parents, who told Alec, "You saved Julius, and you saved our family."

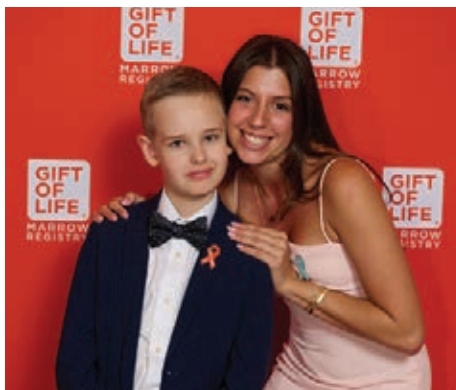

DONOR CIRCLE:
Birthright Israel

Donor David, 28, met his recipient Zahra, 8, at the One Huge Night New York City Gala

Zahra Sharif was diagnosed with Chronic Granulomatous Disease after a prolonged case of pneumonia. Her marrow donor, David Karimzadeh, was found in Gift of Life's registry. "As soon as I got the call I didn't hesitate," he said. Zahra rushed out from behind her parents to hug him and say thank you.

DONOR CIRCLE:
Birthright Israel

Donor Dylan, 24, met her recipient Timothy, 10, at the One Huge Night Miami Gala

Dylan Levkoff joined Gift of Life's registry while attending the University of Miami. When she first learned she was a match she burst into tears with joy. Her recipient, Timothy Sviridenko, was born with an extremely rare inherited immune disease, but is now able to attend school and play with his cousins again.

DONOR CIRCLE:
LionTree

Donor Isabel, 25, met her recipient Nancy, 17, during a Cocktails & Conversation Nantucket

Isabel Valencia joined the registry after her brother donated stem cells, then got her turn to donate marrow and save a life. Her recipient, Nancy Diaz, was born with an inherited platelet anomaly and only a transplant could cure her. "Finding a donor provided me with hope, I didn't want to spend the rest of my life fighting this," she said.

DONOR CIRCLE:
In Honor of Wendy Siegel

Donor Adam, 28, met his recipient Lori, 40, at a Boston Red Sox game

Adam joined the registry on World Marrow Donor Day at Tufts University, saying, "It was an easy decision to swab." He was a match for Lori Bendall and donated stem cells for her to help cure her of Acute Myeloid Leukemia. "I am grateful for the chance to watch my daughter grow up," said Lori.

DONOR CIRCLE:
Campus Ambassador Program

Donor Adam, 21, met his recipient Mike, 15, at the Campus Ambassador Symposium

Mike Johnson was diagnosed with Fanconi Anemia, an inherited blood disorder that can be cured by a stem cell transplant. His donor, Adam LeBlanc, joined the registry at his Florida Atlantic University lacrosse team practice. Mike told Adam that he is “looking forward to doing things I didn’t think I would ever get the chance to do before my transplant.”

DONOR CIRCLE:
Saxton’s Army

Donor Raphael, 22, met his recipient Mitchell, 66, at the Campus Ambassador Symposium

Alpha Epsilon Pi fraternity brother Raphael Eidelman joined the registry at a Swab-a-Thon at CSU Northridge. His recipient, Mitchell Stern, 66, was in need of a blood stem cell transplant to cure Myelodysplastic Syndrome. “Just to meet Rafi and express my gratitude in person means a lot,” said Mitchell.

DONOR CIRCLE:
Alpha Epsilon Pi Fraternity

Donor Zachary, 28, met his recipient Kim, 52, during the San Francisco Winery Tour

Kim Frost-Olin was diagnosed with Acute Lymphoblastic Leukemia on New Year’s Day 2019. A stem cell transplant was her best chance of a cure, and fortunately her donor, Zachary Arestad was already in the registry. “For such a young man to do this for a stranger is really incredible,” said Kim.

DONOR CIRCLE:
Campus Ambassador Program

Donor Owen, 26, met his recipient William, 41, at a Florida Panthers game

Owen Hern joined the registry at the University of Richmond, and was a match for William Anderson, who was battling Acute Myelogenous Leukemia. During Hockey Fights Cancer Night, William thanked Owen for his donation of the blood stem cells that saved his life, and for more time with his children.

DONOR CIRCLE:
Campus Ambassador Program

Donor Sammi, 25, met her recipient Jennifer, 30, during a Nashville Predators game

On Hockey Fights Cancer Night, Sammi Fuller met the woman whose life she saved, Jennifer Bean. Jen was diagnosed with Hodgkin’s Lymphoma, and when a transplant of her own stem cells didn’t work, she needed help from a stranger. “When I learned a donor was found I jumped up and down from excitement,” she said.

DONOR CIRCLE:
Birthright Israel

MILESTONES

Alpha Epsilon Pi (AEPi) Fraternity Donor Circle reached 18,000 donors registered by their chapters nationwide since forming a partnership with Gift of Life in 2004. From those 18,000 there have been 750 donor matches for patients, and 90 lifesaving transplants have been completed. “The value of Tikkun Olam – healing the world – is at the forefront of AEPi’s mission to develop the future leaders of the Jewish community,” said Rob Derdiger, AEPi’s Chief Executive Officer.

MILESTONE

18,000 donors registered

Taglit Birthright Israel Donor Circle has been an incredible partner for Gift of Life since 2004, offering Birthright participants the opportunity to join the registry and have a chance to perform an act of charity by saving a life. More than 100,000 young Jewish adults have taken that step and swabbed their cheek to join Gift of Life, resulting in over 3,700 matches and more than 430 life-saving transplants.

MILESTONE

100,000 donors registered

Zeta Beta Tau (ZBT) Fraternity Donor Circle reached 200 matches between donors and patients in 2023. The fraternity has been a community partner with Gift of Life for many years, formalizing the partnership in 2017. In addition to sponsoring new donors to join the registry, many ZBT brothers have, themselves, donated stem cells or marrow to save lives.

MILESTONE

Reached 200 matches

Help4Ezra Donor Circle was started in 2010 in support of Ezra Fineman, an 18-month-old born with Hyper IgM Syndrome, an immune system disorder. After two transplants, today Ezra is a healthy teen. Many other patients have been helped by donors sponsored through this donor circle, which has achieved the milestone of 500 matches for patients.

MILESTONE

Reached 500 matches

Shari E. Redstone Donor Circle reached 400 matches between donors and patients in 2023. Since becoming involved with Gift of Life, the donor circle has sponsored the swab kits of more than 6,800 donors as they joined the registry. Each swab kit costs \$60 to process at the laboratory, so this support makes a huge impact on the lives of patients who are seeking their matching donors.

MILESTONE

Reached 400 matches

Dr. Michael E. Osband Senior Swab Donor Circle was formed in 2005 in memory of the beloved pediatric oncologist. Through the Osband family's generosity and forward thinking, the Senior Swab Program was created to recruit high school seniors to the registry. In 2023, the Osband Donor Circle reached 100 completed, life-saving transplants by donors the circle has sponsored.

MILESTONE

Reached 100 transplants

2023 Events

Steps for Life 5k South Florida

More than 600 participants ran and walked in the 13th annual fundraising event, and grateful transplant recipient Peter Grehlinger was introduced to his heroic, life-saving donor Tory Foster.

Gift of Life Celebrity Golf Tournament

Former NFL and NHL sports celebrities joined Gift of Life supporters at the Boca West Country Club for this annual fundraiser. Blood cancer survivor Earl Luttner met his stem cell donor Eli Hoch for the first time, then Earl helped introduce 9-year-old Hayden McClung to his donor, Cassidy Cook.

Celebrating Life Boston

The Young Professionals Committee of Boston organized this fundraising event, attracting 300 supporters for a "Taste of Boston" featuring local chefs. Lymphoma survivor Wayne Misselbeck met his life-saving stem cell donor Cory Beck.

Miami Beach Police Department Gift of Life Community Day

New Police Chief Wayne A. Jones was honored to continue the tradition of advocating for Gift of Life on this Community Day. He was thrilled to introduce grateful leukemia survivor Theresa Miller to her excited stem cell donor, Janisha Paul.

One Huge Night Los Angeles Gala

Marrow donor Evan Dolgow was presented with the prestigious Steven Bochco Award for his ongoing work to share Gift of Life's mission. Donor Rachel Barron was introduced to her stem cell recipient Anahita Yazdgerdi, a leukemia survivor.

One Huge Night New York Gala

Julie and Andrew Rubinstein were presented with the Partners for Life Award for their dedication and leadership for Gift of Life's mission. The Lifetime Achievement Award was given to Wendy Siegel for her incredible impact on the organization. Also, marrow donor David Karimzadeh met his 8-year-old recipient Zahra Sharif, and 14-year-old Julius Wolfe met his donor Alec Kremins.

Celebrating Life New York

More than 300 supporters joined Gift of Life in honoring volunteers Evan Dolgow, Sydnie Spector, and Jennifer Winick at this rooftop event. Lymphoma survivor Diane Berson was introduced to her stem cell donor Alexandra Levy in a joyful first meeting.

One Huge Night Miami Gala

Renowned artist Romero Britto, Miami Beach Police Chief Wayne A. Jones, and supporters Michael Larkin, and Alex and Bill Roedy were honored for their positive impact on Gift of Life. Timothy Sviridenko, 10, met his marrow donor Dylan Levkoff, 25.

CAMPUS AMBASSADOR PROGRAM HAS SAVED MORE THAN 620 LIVES!

The Gift of Life Campus Ambassador Program (CAP) is our primary approach to recruiting the crucial donor demographic of 18 to 25 year olds. Transplant centers request these donors most often as they give recipients the best chance of a successful result. Since the program's launch in 2014, the program has added more than 107,000 new donors to the registry, resulting in over 5,800 matches for patients and more than 620 lifesaving transplants.

In 2023, 552 campus ambassadors represented Gift of Life at 146 colleges across the United States. Two hundred and fifteen of the top ambassadors were invited to South Florida to participate in a multiday training session. With

such a large number, two symposiums were held, one in July and one in August. Topics included how to run a recruitment drive, making compelling presentations, and working successfully with other student organizations.

They're doing a tremendous job of recruiting their peers to join Gift of Life's registry!

CORPORATE PARTNERS PROGRAM

HELP US BUILD THE REGISTRY AND SAVE LIVES

Gift of Life works with corporate partners to help fulfill their social responsibility goals. Participation with us gives an organization and its staff members the chance to impact the wider community

by helping to save the lives of patients diagnosed with blood cancer, sickle cell, inherited immune disorders, and related conditions.

We offer many options to firms including:

#SwabAtYour-

Job: An on-site donor recruitment drive at one or all of your firm's locations.

Annual Health Check or Wellness Day:

Your annual wellness day program can also educate staff about how they can become someone's hero and offer them the chance to join the registry.

Lunch and Learn: We provide the lunches and the educator (possibly a donor or recipient to share their experience), and your team learns how easy it is to save someone's life.

Corporate Sponsorships: Gift of Life hosts events across the United States each year and high-visibility sponsorships are a great way to show the community that you're committed to saving lives.

To begin your relationship with Gift of Life Marrow Registry, please contact Director of Development Robyn Malek, rmalek@giftoflife.org, or 561-982-2956.

Redefining Cell and Gene Therapy Starting Material

Today, incredible advances are being made in immunotherapies that begin with blood stem cells, the same cells we currently use for transplantation to cure blood cancer and more than 70 other diseases. There is now a significant demand from medical research and biopharmaceutical firms for peripheral blood stem cells to form the building blocks for next generation living drugs.

Gift of Life has stepped up to meet this exciting moment in medical innovation by creating the Gift of Life Biologics division.

“Our goal for Biologics is to be a single source for the new era of therapeutics by tapping into our donor registry, collection center, cell therapy laboratory, quality systems and information technology, all housed under one roof at Gift of Life’s 32,000 s.f. headquarters,” said Gift of Life Founder and CEO Jay Feinberg.

With more than 437,000 donors in the registry who are already tissue-type tested, and an in-house apheresis facility to collect stem cells, Gift of Life is able to provide medical research and development organizations with the cells needed to create new medications.

Some immunotherapy products may target specific types of cancer, while others may be customized to treat a patient with a rare condition when no other options exist.

“When we invite donors to give stem cells for research projects through Biologics, they have the potential to save many lives with one donation,” said Gift of Life Biologics CEO Eric Strati.

Cellular therapies are the future of medicine, and through its commitment to innovation and development, Gift of Life is positioned to be at the forefront of this medical revolution.

ORANGE SOCIETY

PHILANTHROPY MAGAZINE

The Orange Society Philanthropy Magazine was created for contributors who have donated \$10,000 or more throughout the calendar year. As a member of the Orange Society you have received this annual magazine highlighting the successes you made possible through your generous donations.

Members will also receive special recognition at our One Huge Night Annual Galas in New York City, Los Angeles and Miami. Thank you for your ongoing support and commitment to Gift of Life and our lifesaving mission.
